

The New Zealand
Gazette

OF THURSDAY, 25 JUNE 1992

WELLINGTON: MONDAY, 29 JUNE 1992 — ISSUE NO. 97

**TELECOMMUNICATIONS
(DISCLOSURE)
REGULATIONS 1990**

Financial Statements

This publication sets out material required to be published by Telecom in the *New Zealand Gazette* by the Telecommunications (Disclosure) Regulations 1990.

The information provides financial statements for the year ended 31 March 1992 for the following subsidiaries:

Telecom Auckland Limited;

Telecom Central Limited;

Telecom Wellington Limited;

Telecom South Limited;

The information in this publication was prepared by Telecom Corporation of New Zealand Limited after making all reasonable inquiry and to the best of the knowledge of the Corporation complies with the requirements of regulation 3 of the Telecommunications (Disclosure) Regulations 1990.

This information is also available on request at the following principal offices of the Corporation and its subsidiaries:

Telecom Corporation of New Zealand Limited, Telecom House, 13-27 Manners Street, PO Box 570, Wellington.

Telecom Auckland Limited, Telecom Tower, 16 Kingston Street, Private Bag 92030, Auckland.

Telecom Central Limited, Regional Office, Fifth Floor, Housing Corporation Building, 500 Victoria Street, Private Bag 3100, Hamilton.

Telecom Wellington Limited, Ninth Floor, Hewlett-Packard Building, 186-190 Willis Street, PO Box 293, Wellington.

Telecom South Limited, Level Seven, Telecom House, 109 Hereford Street, PO Box 1473, Christchurch.

TELECOM AUCKLAND LIMITED

STATEMENT OF EARNINGS

TELECOM AUCKLAND LIMITED

NOTES TO THE FINANCIAL STATEMENTS

1 STATEMENT OF ACCOUNTING POLICIES

(a) CONSTITUTION, OWNERSHIP AND ACTIVITIES

Telecom Auckland Limited (the "Company"), was incorporated on 6th December 1988 and is a wholly-owned subsidiary of Telecom Corporation of New Zealand Limited (the "parent company" or "Telecom").

With effect from 1 April 1989 Telecom was restructured into a number of Regional Operating and New Venture companies and as a result, transferred to certain subsidiaries, including Telecom Auckland Limited, at net book value, the telecommunication equipment and other assets and liabilities relating to business previously conducted by Telecom. Telecom and its subsidiaries now together form the Telecom "Group".

The parent company was wholly-owned by Her Majesty the Queen in Right of New Zealand (the "Crown") until 12 September 1990, when, pursuant to an agreement dated 14 June 1990, the Crown sold its shares to subsidiaries of two American companies, Ameritech Corporation ("Ameritech") and Bell Atlantic Corporation ("Bell Atlantic"). Ameritech and Bell Atlantic then agreed to sell a combined 10% interest to a company, Carla Nominees Limited (which was subsequently superseded at 31 March 1992 by two companies - Rontas Holdings Limited and MYNZA Holdings Limited) controlled by two New Zealand companies, Freightways Holdings Limited ("Freightways") and Midavia Holdings Limited ("Midavia"), formerly Fay, Richwhite Holdings Limited. To comply with their agreement with the Crown, Ameritech and Bell Atlantic are obligated to reduce their combined ownership of Telecom to not more than 49.9% of the outstanding share capital by September 1993 (or, under certain circumstances and with the consent of the New Zealand government, by September 1994). At the completion of this transaction period, Ameritech and Bell Atlantic will each own not more than 24.95% of Telecom.

In July 1991, to satisfy partially this obligation, Ameritech and Bell Atlantic sold 724.5 million shares in Telecom (representing approximately 31% of the then outstanding share capital) to the public and institutions in a worldwide offering.

At 31 March 1992, Ameritech and Bell Atlantic held a combined 1,614,441,112 ordinary shares (68.4% of the outstanding share capital) and Rontas Holdings Limited and MYNZA Holdings Limited each held 5,529,444 ordinary shares.

The Crown holds, and will continue to hold, one special rights convertible preference share (the "Kiwi Share") in Telecom which assures that:

- A local free-calling option will be maintained for all residential customers.
- The standard residential rental for ordinary residential telephone service will not rise faster than the cost of living as measured by the New Zealand Consumer Price Index unless Telecom's regional operating company profits are unreasonably impaired.
- Line rentals for residential customers in rural areas will be no higher than the standard residential rental, and ordinary residential telephone service will remain as widely available as it was as at 11 September 1990.

The principal activity of Telecom Auckland Limited is the provision of telecommunication services in the Auckland and Northland regions.

TELECOM AUCKLAND LIMITED

NOTES TO THE FINANCIAL STATEMENTS

(CONTINUED)

1 STATEMENT OF ACCOUNTING POLICIES (Continued)

(b) GENERAL ACCOUNTING POLICIES

The measurement basis adopted in the preparation of these financial statements is historical cost. Accrual accounting is used to match income and expenses.

(c) SPECIFIC ACCOUNTING POLICIES

REVENUE RECOGNITION

Revenues for all services are recognised when earned. Billings for telephone services are made on a monthly basis throughout the month. Unbilled revenues from the billing cycle date to the end of each month are recognised as revenue during the month the service is provided. Revenue recognition is deferred in respect of that portion of fixed monthly charges which have been billed in advance.

Revenue principally includes telephone line rental, national calls, leased circuits and the rental, sale, maintenance and installation of customer premises equipment and related products.

FIXED ASSETS

Fixed assets are valued at the cost at which they were purchased by Telecom Corporation of New Zealand Limited from the Crown as at 1 April 1987, adjusted by subsequent additions at cost, disposals and depreciation. The fixed assets were purchased from the Crown on the basis of depreciated replacement cost using estimated remaining lives as at 1 April 1987.

Telecom Auckland Limited purchased fixed assets from Telecom as at 1 April 1989 at cost (as above) less accumulated depreciation pursuant to a Sale and Purchase Agreement dated 31 March 1989 and a supplementary agreement dated 28 September 1989. Subsequent additions have been recorded at cost.

The cost of additions to plant and equipment constructed within the Telecom Group subsequent to 1 April 1987 consists of all appropriate costs of development, construction and installation comprising material, labour, direct overheads and transport costs.

Effective 1 April 1989 for each fixed asset project having a cost in excess of \$10 million and a construction period of not less than 12 months, interest cost incurred during the period of time that is required to complete and prepare the fixed asset ready for its intended use is capitalised as part of the total cost.

Where capital project commitments are hedged against foreign currency rate risk, the capital project is recorded at the hedged exchange rate.

Telecommunication equipment includes that part of the network system up to and including the contracted demarcation point, terminal equipment installed within customers' premises and the cabling and wiring within commercial buildings where this has been supplied by the Group in its own right.

Costs associated with the installation, connection and provision of services are charged to earnings.

Maintenance and repairs, including minor renewals and betterments, are charged to earnings as incurred.

TELECOM AUCKLAND LIMITED

NOTES TO THE FINANCIAL STATEMENTS

(CONTINUED)

1 STATEMENT OF ACCOUNTING POLICIES (Continued)

DEPRECIATION

Depreciation is charged on a straight line basis so as to write down the cost of the fixed assets to their estimated residual value over their estimated economic lives, which are as follows:

Telecommunication equipment and plant:

Customer local loop	5-30 years
Junctions and trunk transmission systems	10-30 years
Switching equipment	5-15 years
Customer premises equipment	5 years
Other network equipment	5-25 years
Buildings	40-100 years
Motor vehicles	5 years
Furniture and fittings	5-10 years
Computer equipment	3-5 years

When depreciable assets are retired or otherwise disposed of, the related cost and accumulated depreciation are removed from the respective accounts and any gains or losses on disposal are recognised in earnings.

Land and capital work in progress are not depreciated.

ACCOUNTS RECEIVABLE

Accounts receivable are recorded at expected realisable value after providing for bad and doubtful accounts.

INVENTORIES

Inventories are comprised principally of materials for self constructed network assets, critical maintenance spares and customer premises equipment held for rental or resale. They are stated at the lower of cost and net realisable value after due consideration for excess and obsolete items. Cost is determined on a first in first out basis.

LEASES

The Company is lessor of customer premises equipment. Rental income applicable to operating leases, under which substantially all the benefits and risks of ownership remain with the lessor, are taken to revenue as earned.

Additionally, the Company is lessee of certain plant, equipment, land and buildings under both operating and finance leases. Expenses relating to operating leases are charged against earnings as incurred. Finance leases, which effectively transfer to the entity substantially all the risks and benefits of ownership of the leased item, are capitalised at the present value of the minimum lease payments. The leased assets and corresponding liabilities are disclosed and the leased assets are amortised over the period the entity is expected to benefit from their use.

No material finance leases have been entered into as lessor.

TELECOM AUCKLAND LIMITED

NOTES TO THE FINANCIAL STATEMENTS

(CONTINUED)

1 STATEMENT OF ACCOUNTING POLICIES (Continued)

COMPENSATED ABSENCES

The liability for employees' compensation for future absences is accrued in respect of employees' services already rendered and where the obligation relates to rights which have vested. Such liability is reflected within accrued personnel costs.

LIABILITY FOR EMPLOYEES' SEVERANCE PAYMENTS

Severance payments are accrued in respect of any employees whose positions have been specifically designated as being surplus to the needs of the Company. Employees whose services with the Company are so terminated are normally entitled to lump-sum severance payments determined by reference to current basic rate of pay, length of service and conditions under which the termination occurs. The continued period during which a terminating employee served both the New Zealand Post Office and subsequently the Telecom Group constitutes the length of service.

Such liabilities are reflected within accrued personnel costs.

PENSIONS

Contributions are made into the Government Superannuation Fund (the "Fund") in respect of those employees who are members of the Fund at a rate specified under the Sale and Purchase Agreement whereby Telecom acquired the telecommunication business of the New Zealand Post Office on 1 April 1987. Additionally, full provision is made for the accrued pension costs relating to members of the Telecom Employees' Pension Plan (the "Plan") upon the basis of actuarial valuations, which are to be made at least once every three years. Contributions to the Fund and the Plan are charged against earnings.

TAXATION

The taxation expense charged to earnings includes both current and deferred tax and is calculated after allowing for permanent differences. Deferred taxation calculated using the liability method is accounted for on all significant timing differences between the earnings stated in the financial statements and the assessable income computed for taxation purposes. Deferred taxation is recognised only on those timing differences that are expected to reverse within the foreseeable future.

FOREIGN CURRENCIES

The financial statements are expressed in New Zealand dollars. Foreign currency transactions are recorded at the exchange rate ruling at the date of the transaction except for hedged transactions, which are recorded at the hedged exchange rate. Monetary assets and liabilities denominated in foreign currencies have been translated to New Zealand currency at the spot rates of exchange ruling at balance date. Realised and unrealised profits and losses on foreign exchange transactions are recognised in earnings for the period.

The Company enters into contracts with Telecom (as the Group's central treasury operation) to manage the Company's foreign exchange exposure.

RECLASSIFICATIONS

Certain reclassifications of prior years' data have been made to conform to 1992 classifications.

(d) CHANGES IN ACCOUNTING POLICIES

There have been no material changes in accounting policies during the year.

Prepaid expenses and other	1,036	5,883
	<u>100,804</u>	<u>112,463</u>

6 OTHER ASSETS

Other assets include certain deferred expenditure amounting to \$3.6 million (31 March 1991: \$5.3 million) incurred in relation to the installation of major computer systems. The deferred costs relating to each phase of the system are charged to earnings over a period of two years from the date upon which that phase of the system becomes fully operational. Deferred costs amortised during the year ended 31 March 1992 amounted to \$3.4 million (31 March 1991: \$2.3 million).

In addition, at 31 March 1992, other assets include \$2.2 million, being advances to the Trustee of two employee share purchase plans. These share purchase plans were established in July 1991 as part of the initial public offering and gave employees the opportunity to invest in Telecom, financed by interest free and favourable interest rate loans repayable over a three-year period.

The shares, which were purchased at the initial public offering price of \$2 each, are held in trust for the employee for a restrictive period of three years, during which time voting rights will be exercised by the Trustee in its discretion.

7 FIXED ASSETS

	1992	1991
	\$000's	\$000's
Telecommunication equipment:		
- Cost	1,168,661	1,069,665
- Accumulated depreciation	(409,281)	(344,442)
	<u>759,380</u>	<u>725,223</u>
Capital work in progress	<u>65,821</u>	<u>101,135</u>
Land	<u>57,405</u>	<u>57,682</u>
Buildings:		
- Cost	137,366	130,903
- Accumulated depreciation	(14,382)	(10,911)
	<u>122,984</u>	<u>119,992</u>
Other fixed assets:		
- Cost	132,023	115,903
- Accumulated depreciation	(54,733)	(46,301)
	<u>77,290</u>	<u>69,602</u>
Total cost	1,561,276	1,475,288
Total accumulated depreciation	(478,396)	(401,654)
Total net book value	<u>1,082,880</u>	<u>1,073,634</u>

Included in telecommunications equipment, at 31 March 1992 and 31 March 1991 respectively, is equipment (principally customer premises equipment) leased to customers under operating leases with a cost of \$191.2 million and \$180.0 million, together with accumulated depreciation of \$140.1 million and \$108.9 million.

Other fixed assets include tools and plant, vehicles, office equipment, furniture and fittings and computer equipment.

During the year ended 31 March 1992, the Company entered into a sale and leaseback of telecommunications equipment with a fellow group company. At 31 March 1992, assets capitalised under finance leases associated with this transaction had a cost of \$75.8 million and accumulated depreciation of \$5.1 million.

TELECOM AUCKLAND LIMITED

NOTES TO THE FINANCIAL STATEMENTS

(CONTINUED)

7 FIXED ASSETS (Continued)**REGISTRATION OF TITLE TO LAND**

Certificates of title for freehold interests in land included in the assets purchased from the Crown are being progressively raised by the Crown and transferred to Group companies. Titles for substantially all of the freehold interests have now been issued and, for the remainder, equitable ownership rests with the Group.

LAND CLAIMS

Under the Treaty of Waitangi Act 1975 all interests in land included in the assets purchased from the Crown may be subject to claims to the Waitangi Tribunal which has the power to recommend in appropriate circumstances, with binding effect, that the land be resumed by the Crown in order that it be returned to Maori claimants. In the event that land is resumed by the Crown, compensation will be paid to Telecom under the provisions of the Public Works Act 1981. If this is insufficient to cover the loss, certain additional compensation is payable under the provisions of the Sale and Purchase Agreement between Telecom and the Crown.

Under the State Owned Enterprises Act 1986 the Governor General of New Zealand may if satisfied that any land or interest in land held by Telecom is Wahi Tapu (being land of special spiritual, cultural or historical tribal significance) declare by Order in Council that the land be resumed by the Crown, with compensation payable to Telecom under the provisions of the Public Works Act 1981.

Telecom would expect to negotiate with the new Maori owners for continued occupancy rights of any sites resumed by the Crown.

8 ACCOUNTS PAYABLE AND ACCRUALS

	1992	1991
	\$000's	\$000's
Trade accounts payable and accruals	21,602	32,650
Accrued personnel costs	16,830	34,320
Rentals billed in advance	13,123	14,472
Payable to fellow subsidiary companies	65,614	22,687
Payable to parent company	14,262	174,356
	131,431	278,485

11 COMMITMENTS

OPERATING LEASES

Operating lease commitments are mainly in respect of leases of land and buildings. Minimum rental commitments as at 31 March 1992 for all non-cancellable operating leases are:

	(in millions)
Payable within 1 year	12.9
Payable within 1-2 years	12.7
Payable within 2-3 years	12.7
Payable within 3-4 years	12.4
Payable within 4-5 years	11.9
Payable thereafter	29.6
	<u>\$92.2</u>

CAPITAL COMMITMENTS

As at 31 March 1992 capital expenditure amounting to \$15.9 million (31 March 1991: \$50.0 million) has been committed under contractual arrangements.

12 CONTINGENT LIABILITIES

LAND CLAIMS

As stated in Note 7, interests in land included in assets purchased from the Crown may be subject to claims to the Waitangi Tribunal or may be deemed to be Wahi Tapu and, in either case, may be resumed by the Crown.

Certain claims have been brought or are pending against the Crown under the Treaty of Waitangi Act 1975. Some of these claims may affect land transfers to Telecom by the Crown and/or by Telecom to its subsidiary companies.

In the event that land is resumed by the Crown, there is provision for compensation to Telecom.

LAWSUITS AND OTHER CLAIMS

Various lawsuits, claims and investigations have been brought by or against the Company. The Board of Directors believes that in the event of an unfavourable outcome, such matters will not have a material adverse effect upon the Company's financial position.

In addition to the above, a competitor filed proceedings in August 1991, against Telecom, including Telecom Auckland, in connection with a request for a local service interconnection arrangement. The substantive issues are to be heard by the Court commencing in June 1992. The basis of claim is that the Telecom Group, in offering certain terms and conditions of service, is in breach of section 36 of the Commerce Act 1986. Telecom believes that it has valid defences to these proceedings. Because there are very few precedents to assist Telecom in determining the outcome if this action were to proceed, Telecom cannot ascertain the likelihood of such action being successful or the potential impact any judgement against it might have upon the trend of future net earnings.

TELECOM AUCKLAND LIMITED

NOTES TO THE FINANCIAL STATEMENTS

(CONTINUED)

12 CONTINGENT LIABILITIES (Continued)

GUARANTEES

The Company has guaranteed, together with other subsidiary companies, approximately \$1,533 million of the indebtedness of the parent company and other subsidiary companies at 31 March 1992, principally under the following agreements:

- (i) \$466.3 million under a trust deed made as of 25 October 1988 with the New Zealand Guardian Trust Company Limited providing for the constitution and issue of securities in respect of indebtedness from time to time of the parent company and/or any guaranteeing subsidiary.
- (ii) \$542.0 million under a trust deed made as of 20 September 1989 and certain supplemental trust deeds with the Law Debenture Trust Corporation PLC providing for the constitution and issue of securities in respect of indebtedness from time to time of the parent company and/or any guaranteeing subsidiary.
- (iii) British pounds 122.6 million (NZ\$388.1 million) under a deed poll dated 12 November 1990.
- (iv) \$137.0 million under a deed of guarantee dated 27 March 1992 in respect of the issue of Mandatory Convertible Notes by a fellow subsidiary. Further performance based guarantees have also been given by the company.

Under certain of the agreements referred to above the Company together with the other guaranteeing subsidiaries has given a negative pledge that while any of the guaranteed indebtedness remains outstanding it will not, subject to certain exceptions, create or permit to exist any charge or lien over any of its assets.

13 RELATED PARTY TRANSACTIONS

RELATIONSHIP WITH STATE OWNED ENTERPRISES AND GOVERNMENT DEPARTMENTS

The Company is wholly owned by Telecom Corporation of New Zealand Limited which in turn was owned by the Crown until 12 September 1990. During that time the Company undertook many transactions with other State Owned Enterprises and government departments which were carried out at arm's length and in the normal course of business.

RELATIONSHIP WITH PARENT AND FELLOW SUBSIDIARY COMPANIES

During the period the Company derived revenue (approximately 8%) from access fees, maintenance services and asset construction services provided to fellow subsidiaries. The Company also utilised network capacity and related services and group management services provided by fellow subsidiaries. Additionally, certain inventory and network assets were procured from and serviced by fellow subsidiaries. Such expenses represented approximately 15% of total operating expenses.

Outstanding intercompany balances as at 31 March 1992 are:

- Intercompany receivable	\$4.9 million
- Intercompany payable and current account	\$79.9 million
- Intercompany term liabilities	\$359.6 million

TELECOM AUCKLAND LIMITED

NOTES TO THE FINANCIAL STATEMENTS

(CONTINUED)

13 RELATED PARTY TRANSACTIONS (Continued)

With the exception of the current account and the term liability to parent company, the balances are payable on normal trading terms. The current account is on call and the term liability to parent company has no fixed date for repayment. No related party debts have been written off or forgiven during the year.

GROUP RESTRUCTURING AND CHANGE IN TRADING RELATIONSHIP

With effect from 1 April 1991, the pricing of the trading relationship between the Company and Telecom New Zealand International Limited, a fellow group company, was renegotiated. The effect of the change on the results for the twelve months ended 31 March 1992 was to reduce reported operating revenues by approximately \$36.8 million and net earnings by approximately \$24.7 million from that which would otherwise have been reported.

With effect from 1 April 1991, a new group company was formed to provide national network and other operational services to the Regional Operating Companies. As a result of this restructuring, certain fixed assets, personnel (and related accrued personnel costs) and services previously associated with the Company were transferred at net book value to the new company. The net book value of the fixed assets transferred amounted to approximately \$5.2 million.

14 FELLOW SUBSIDIARY COMPANIES

At 31 March 1992 the principal fellow subsidiaries of the Company were as follows:

- Telecom Central Limited
- Telecom Wellington Limited
- Telecom South Limited
- Telecom Networks and Operations Limited
- Telecom New Zealand International Limited (formerly Telecom Networks and International Limited)
- Telecom Directories Limited
- Telecom Equipment Supplies Limited
- Telecom Cellular Limited
- Telecom Mobile Radio Limited
- Telecom Repair Services Limited
- Telecom Paging Limited
- New Zealand Telecommunications Systems Support Centre Limited
- Comtel Communications Limited
- Telecom Corporation of New Zealand (Overseas Finance) Limited
- TCNZ (UK) Investments Limited
- TCNZ (United Kingdom) Securities Limited
- TCNZ Finance Limited
- TCNZ Financial Services Limited
- Telecom Wellington Investments Limited
- Telecom Operations Limited
- TCNZ Equities Limited (formerly Mokuso Holdings Limited)
- Teleco Insurance, Inc

In-substance subsidiaries

- Netway Communications Limited

TELECOM AUCKLAND LIMITED

NOTES TO THE FINANCIAL STATEMENTS

(CONTINUED)

15 *SEGMENTAL REPORTING*

The Company's principal business activity is the provision of telecommunication services, constituting more than 90% of total operating revenues, operating earnings and identifiable assets.

The Company's business is conducted predominantly in New Zealand and is therefore within one geographical area for reporting purposes.

AUDITORS' REPORT

*REPORT OF THE AUDITORS
TO THE MEMBERS OF TELECOM AUCKLAND LIMITED*

The financial statements are in agreement with the accounting records which, in our opinion, have been properly kept. We obtained the information and explanations we required.

In our opinion, the financial statements give, under the historical cost convention a true and fair view of the state of the Company's affairs at 31 March 1992 and of the earnings for the year ended on that date and they comply with the Telecommunications (Disclosure) Regulations 1990.

TELECOM CENTRAL LIMITED AND SUBSIDIARY

NOTES TO THE FINANCIAL STATEMENTS

1 STATEMENT OF ACCOUNTING POLICIES

(a) CONSTITUTION, OWNERSHIP AND ACTIVITIES

Telecom Central Limited (the "Company") was incorporated on 6th December 1988 and is a wholly-owned subsidiary of Telecom Corporation of New Zealand Limited (the "parent company" or "Telecom").

With effect from 1 April 1989 Telecom was restructured into a number of Regional Operating and New Venture companies and as a result, transferred to certain subsidiaries, including Telecom Central Limited, at net book value, the telecommunication equipment and other assets and liabilities relating to business previously conducted by Telecom. Telecom and its subsidiaries now together form the Telecom "Group".

Telecom Central Limited acquired the shares and net assets of Telecom Midland Limited with effect from 1 April 1990, and now provides telecommunication services in the area previously serviced by Telecom Midland Limited as well as its own previously designated area.

The parent company was wholly-owned by Her Majesty the Queen in Right of New Zealand (the "Crown") until 12 September 1990, when, pursuant to an agreement dated 14 June 1990, the Crown sold its shares to subsidiaries of two American companies, Ameritech Corporation ("Ameritech") and Bell Atlantic Corporation ("Bell Atlantic"). Ameritech and Bell Atlantic then agreed to sell a combined 10% interest to a company, Carla Nominees Limited (which was subsequently superseded at 31 March 1992 by two companies - Rontas Holdings Limited and MYNZA Holdings Limited) controlled by two New Zealand companies, Freightways Holdings Limited ("Freightways") and Midavia Holdings Limited ("Midavia"), formerly Fay, Richwhite Holdings Limited. To comply with their agreement with the Crown, Ameritech and Bell Atlantic are obligated to reduce their combined ownership of Telecom to not more than 49.9% of the outstanding share capital by September 1993 (or, under certain circumstances and with the consent of the New Zealand government, by September 1994). At the completion of this transaction period, Ameritech and Bell Atlantic will each own not more than 24.95% of Telecom.

In July 1991, to satisfy partially this obligation, Ameritech and Bell Atlantic sold 724.5 million shares in Telecom (representing approximately 31% of the then outstanding share capital) to the public and institutions in a worldwide offering.

At 31 March 1992, Ameritech and Bell Atlantic held a combined 1,614,441,112 ordinary shares (68.4% of the outstanding share capital) and Rontas Holdings Limited and MYNZA Holdings Limited each held 5,529,444 ordinary shares.

The Crown holds, and will continue to hold, one special rights convertible preference share (the "Kiwi Share") in Telecom which assures that:

- A local free-calling option will be maintained for all residential customers.
- The standard residential rental for ordinary residential telephone service will not rise faster than the cost of living as measured by the New Zealand Consumer Price Index unless Telecom's regional operating company profits are unreasonably impaired.
- Line rentals for residential customers in rural areas will be no higher than the standard residential rental, and ordinary residential telephone service will remain as widely available as it was as at 11 September 1990.

The principal activity of Telecom Central Limited is the provision of telecommunication services in the North Island excluding the Auckland, Northland and Wellington regions.

TELECOM CENTRAL LIMITED AND SUBSIDIARY

NOTES TO THE FINANCIAL STATEMENTS

(CONTINUED)

1 STATEMENT OF ACCOUNTING POLICIES (Continued)

(b) GENERAL ACCOUNTING POLICIES

The measurement basis adopted in the preparation of these financial statements is historical cost. Accrual accounting is used to match income and expenses.

(c) SPECIFIC ACCOUNTING POLICIES

REVENUE RECOGNITION

Revenues for all services are recognised when earned. Billings for telephone services are made on a monthly basis throughout the month. Unbilled revenues from the billing cycle date to the end of each month are recognised as revenue during the month the service is provided. Revenue recognition is deferred in respect of that portion of fixed monthly charges which have been billed in advance.

Revenue principally includes telephone line rental, national calls, leased circuits and the rental, sale, maintenance and installation of customer premises equipment and related products.

FIXED ASSETS

Fixed assets are valued at the cost at which they were purchased by Telecom Corporation of New Zealand Limited from the Crown as at 1 April 1987, adjusted by subsequent additions at cost, disposals and depreciation. The fixed assets were purchased from the Crown on the basis of depreciated replacement cost using estimated remaining lives as at 1 April 1987.

Telecom Central Limited purchased fixed assets from Telecom as at 1 April 1989 at cost (as above) less accumulated depreciation pursuant to a Sale and Purchase Agreement dated 31 March 1989 and a supplementary agreement dated 28 September 1989. Subsequent additions have been recorded at cost.

The cost of additions to plant and equipment constructed within the Telecom Group subsequent to 1 April 1987 consists of all appropriate costs of development, construction and installation comprising material, labour, direct overheads and transport costs.

Effective 1 April 1989 for each fixed asset project having a cost in excess of \$10 million and a construction period of not less than 12 months, interest cost incurred during the period of time that is required to complete and prepare the fixed asset ready for its intended use is capitalised as part of the total cost.

Where capital project commitments are hedged against foreign currency rate risk, the capital project is recorded at the hedged exchange rate.

Telecommunication equipment includes that part of the network system up to and including the contracted demarcation point, terminal equipment installed within customers' premises and the cabling and wiring within commercial buildings where this has been supplied by the Group in its own right.

Costs associated with the installation, connection and provision of services are charged to earnings.

Maintenance and repairs, including minor renewals and betterments, are charged to earnings as incurred.

TELECOM CENTRAL LIMITED AND SUBSIDIARY

NOTES TO THE FINANCIAL STATEMENTS

(CONTINUED)

1 STATEMENT OF ACCOUNTING POLICIES (Continued)

DEPRECIATION

Depreciation is charged on a straight line basis so as to write down the cost of the fixed assets to their estimated residual value over their estimated economic lives, which are as follows:

Telecommunication equipment and plant:

Customer local loop	5-30 years
Junctions and trunk transmission systems	10-30 years
Switching equipment	5-15 years
Customer premises equipment	5 years
Other network equipment	5-25 years
Buildings	40-100 years
Motor vehicles	5 years
Furniture and fittings	5-10 years
Computer equipment	3-5 years

When depreciable assets are retired or otherwise disposed of, the related cost and accumulated depreciation are removed from the respective accounts and any gains or losses on disposal are recognised in earnings.

Land and capital work in progress are not depreciated.

ACCOUNTS RECEIVABLE

Accounts receivable are recorded at expected realisable value after providing for bad and doubtful accounts.

INVENTORIES

Inventories are comprised principally of materials for self constructed network assets, critical maintenance spares and customer premises equipment held for rental or resale. They are stated at the lower of cost and net realisable value after due consideration for excess and obsolete items. Cost is determined on a first in first out basis.

LEASES

The Company is lessor of customer premises equipment. Rental income applicable to operating leases, under which substantially all the benefits and risks of ownership remain with the lessor, are taken to revenue as earned.

Additionally, the Company is lessee of certain plant, equipment, land and buildings under both operating and finance leases. Expenses relating to operating leases are charged against earnings as incurred. Finance leases, which effectively transfer to the entity substantially all the risks and benefits of ownership of the leased item, are capitalised at the present value of the minimum lease payments. The leased assets and corresponding liabilities are disclosed and the leased assets are amortised over the period the entity is expected to benefit from their use.

No material finance leases have been entered into as lessor.

TELECOM CENTRAL LIMITED AND SUBSIDIARY

NOTES TO THE FINANCIAL STATEMENTS

(CONTINUED)

1 STATEMENT OF ACCOUNTING POLICIES (Continued)

COMPENSATED ABSENCES

The liability for employees' compensation for future absences is accrued in respect of employees' services already rendered and where the obligation relates to rights which have vested. Such liability is reflected within accrued personnel costs.

LIABILITY FOR EMPLOYEES' SEVERANCE PAYMENTS

Severance payments are accrued in respect of any employees whose positions have been specifically designated as being surplus to the needs of the Company. Employees whose services with the Company are so terminated are normally entitled to lump-sum severance payments determined by reference to current basic rate of pay, length of service and conditions under which the termination occurs. The continued period during which a terminating employee served both the New Zealand Post Office and subsequently the Telecom Group constitutes the length of service.

Such liabilities are reflected within accrued personnel costs.

PENSIONS

Contributions are made into the Government Superannuation Fund (the "Fund") in respect of those employees who are members of the Fund at a rate specified under the Sale and Purchase Agreement whereby Telecom acquired the telecommunication business of the New Zealand Post Office on 1 April 1987. Additionally, full provision is made for the accrued pension costs relating to members of the Telecom Employees' Pension Plan (the "Plan") upon the basis of actuarial valuations, which are to be made at least once every three years. Contributions to the Fund and the Plan are charged against earnings.

TAXATION

The taxation expense charged to earnings includes both current and deferred tax and is calculated after allowing for permanent differences. Deferred taxation calculated using the liability method is accounted for on all significant timing differences between the earnings stated in the financial statements and the assessable income computed for taxation purposes. Deferred taxation is recognised only on those timing differences that are expected to reverse within the foreseeable future.

FOREIGN CURRENCIES

The financial statements are expressed in New Zealand dollars. Foreign currency transactions are recorded at the exchange rate ruling at the date of the transaction except for hedged transactions, which are recorded at the hedged exchange rate. Monetary assets and liabilities denominated in foreign currencies have been translated to New Zealand currency at the spot rates of exchange ruling at balance date. Realised and unrealised profits and losses on foreign exchange transactions are recognised in earnings for the period.

The Company enters into contracts with Telecom (as the Group's central treasury operation) to manage the Company's foreign exchange exposure.

RECLASSIFICATIONS

Certain reclassifications of prior years' data have been made to conform to 1992 classifications.

(d) CHANGES IN ACCOUNTING POLICIES

There have been no material changes in accounting policies during the year.

	\$000's	\$000's
Accounts receivable, net	48,899	54,421
Unbilled rentals and tolls	16,762	17,650
Due from fellow subsidiary companies	2,230	588
Prepaid expenses and other	366	165
	68,257	72,824

6 OTHER ASSETS

Other assets include certain deferred expenditure amounting to \$5.4 million (31 March 1991: \$10.0 million) incurred in relation to the installation of major computer systems. The deferred costs relating to each phase of the system are charged to earnings over a period of two years from the date upon which that phase of the system becomes fully operational. Deferred costs amortised during the year ended 31 March 1992 amounted to \$7.1 million (31 March 1991: \$3.7 million).

In addition, at 31 March 1992, other assets include \$1.4 million, being advances to the Trustee of two employee share purchase plans. These share purchase plans were established in July 1991 as part of the initial public offering and gave employees the opportunity to invest in Telecom, financed by interest free and favourable interest rate loans repayable over a three-year period.

The shares, which were purchased at the initial public offering price of \$2 each, are held in trust for the employee for a restrictive period of three years, during which time voting rights will be exercised by the Trustee in its discretion.

- Accumulated depreciation	(52,425)	(41,275)
	<u>62,245</u>	<u>65,308</u>
Total cost	1,320,020	1,269,846
Total accumulated depreciation	(442,262)	(372,453)
Total net book value	<u>877,758</u>	<u>897,393</u>

Included in telecommunications equipment at 31 March 1992 and 31 March 1991 respectively, is equipment (principally customer premises equipment) leased to customers under operating leases with a cost of \$102.6 million and \$98.6 million together with accumulated depreciation of \$87.2 million and \$69.1 million.

Other fixed assets include tools and plant, vehicles, office equipment, furniture and fittings and computer equipment.

During the year ended 31 March 1992, the Company entered into a sale and leaseback of telecommunications equipment with a fellow group company. At 31 March 1992, assets capitalised under finance leases associated with this transaction had a cost of \$50.3 million and accumulated depreciation of \$3.6 million.

TELECOM CENTRAL LIMITED AND SUBSIDIARY

NOTES TO THE FINANCIAL STATEMENTS

(CONTINUED)

7 FIXED ASSETS (Continued)

REGISTRATION OF TITLE TO LAND

Certificates of title for freehold interests in land included in the assets purchased from the Crown are being progressively raised by the Crown and transferred to Group companies. Titles for substantially all of the freehold interests have now been issued and, for the remainder, equitable ownership rests with the Group.

LAND CLAIMS

Under the Treaty of Waitangi Act 1975 all interests in land included in the assets purchased from the Crown may be subject to claims to the Waitangi Tribunal which has the power to recommend in appropriate circumstances, with binding effect, that the land be resumed by the Crown in order that it be returned to Maori claimants. In the event that land is resumed by the Crown, compensation will be paid to Telecom under the provisions of the Public Works Act 1981. If this is insufficient to cover the loss, certain additional compensation is payable under the provisions of the Sale and Purchase Agreement between Telecom and the Crown.

Under the State Owned Enterprises Act 1986 the Governor General of New Zealand may if satisfied that any land or interest in land held by Telecom is Wahi Tapu (being land of special spiritual, cultural or historical tribal significance) declare by order in Council that the land be resumed by the Crown, with compensation payable to Telecom under the provisions of the Public Works Act 1981.

Telecom would expect to negotiate with the new Maori owners for continued occupancy rights on any sites resumed by the Crown.

11 COMMITMENTS

OPERATING LEASES

Operating lease commitments are mainly in respect of leases of land and buildings. Minimum rental commitments as at 31 March 1992 for all non-cancellable operating leases are:

	(in millions)
Payable within 1 year	4.0
Payable within 1-2 years	3.8
Payable within 2-3 years	3.6
Payable within 3-4 years	2.7
Payable within 4-5 years	2.2
Payable thereafter	5.1
	<u>21.4</u>
	<u>\$21.4</u>

CAPITAL COMMITMENTS

As at 31 March 1992 capital expenditure amounting to \$9.6 million (31 March 1991: \$27.4 million) has been committed under contractual arrangements.

12 CONTINGENT LIABILITIES

LAND CLAIMS

As stated in Note 7, interests in land included in assets purchased from the Crown may be subject to claims to the Waitangi Tribunal or may be deemed to be Wahi Tapu and, in either case, may be resumed by the Crown.

Certain claims have been brought or are pending against the Crown under the Treaty of Waitangi Act 1975. Some of these claims may affect land transfers to Telecom by the Crown and/or by Telecom to its subsidiary companies.

In the event that land is resumed by the Crown, there is provision for compensation to Telecom.

LAWSUITS AND OTHER CLAIMS

Various lawsuits, claims and investigations have been brought by or against the Company. The Board of Directors believes that in the event of an unfavourable outcome, such matters will not have a material adverse effect upon the Company's financial position.

In addition to the above, a competitor filed proceedings in August 1991, against Telecom, in connection with a request for a local service interconnection arrangement. The substantive issues are to be heard by the Court commencing in June 1992. The basis of claim is that the Telecom Group, in offering certain terms and conditions of service, is in breach of section 36 of the Commerce Act 1986. Telecom believes that it has valid defences to these proceedings. Because there are very few precedents to assist Telecom in determining the outcome if this action were to proceed, Telecom cannot ascertain the likelihood of such action being successful or the potential impact any judgement against it might have upon the trend of future net earnings.

TELECOM CENTRAL LIMITED AND SUBSIDIARY

NOTES TO THE FINANCIAL STATEMENTS

(CONTINUED)

12 CONTINGENT LIABILITIES (Continued)

GUARANTEES

The Company has guaranteed, together with other subsidiary companies, approximately \$1,533 million of the indebtedness of the parent company and other subsidiary companies at 31 March 1992, principally under the following agreements:

- (i) \$466.3 million under a trust deed made as of 25 October 1988 with the New Zealand Guardian Trust Company Limited providing for the constitution and issue of securities in respect of indebtedness from time to time of the parent company and/or any guaranteeing subsidiary.
- (ii) \$542.0 million under a trust deed made as of 20 September 1989 and certain supplemental trust deeds with the Law Debenture Trust Corporation PLC providing for the constitution and issue of securities in respect of indebtedness from time to time of the parent company and/or any guaranteeing subsidiary.
- (iii) British Pounds 122.6 million (NZ\$388.1 million) under a deed poll dated 12 November 1990.
- (iv) \$137.0 million under a deed of guarantee dated 27 March 1992 in respect of the issue of Mandatory Convertible Notes by a fellow subsidiary. Further performance based guarantees have also been given by the company.

Under certain of the agreements referred to above the Company together with the other guaranteeing subsidiaries has given a negative pledge that while any of the guaranteed indebtedness remains outstanding it will not, subject to certain exceptions, create or permit to exist any charge or lien over any of its assets.

13 RELATED PARTY TRANSACTIONS

RELATIONSHIP WITH STATE OWNED ENTERPRISES AND GOVERNMENT DEPARTMENTS

The Company is wholly owned by Telecom Corporation of New Zealand Limited which in turn was owned by the Crown until 12 September 1990. During that time the Company undertook many transactions with other State Owned Enterprises and government departments which were carried out at arm's length and in the normal course of business.

RELATIONSHIP WITH PARENT AND FELLOW SUBSIDIARY COMPANIES

During the period the Company derived revenue (approximately 6%) from access fees, maintenance services and asset construction services provided to fellow subsidiaries. The Company also utilised network capacity and related services and group management services provided by fellow subsidiaries. Additionally, certain inventory and network assets were procured from and serviced by fellow subsidiaries. Such expenses represented approximately 16% of total operating expenses.

Outstanding intercompany balances as at 31 March 1992 are:

- Intercompany receivable	\$2.2 million
- Intercompany payable and current account	\$30.5 million
- Intercompany term liabilities	\$303.9 million

With the exception of the current account and the term liability to parent company, the balances are payable on normal trading terms. The current account is on call and the term liability to parent company has no fixed date for repayment. No related party debts have been written off or forgiven during the year.

13 RELATED PARTY TRANSACTIONS (Continued)

GROUP RESTRUCTURING AND CHANGE IN TRADING RELATIONSHIP

With effect from 1 April 1991, the pricing of the trading relationship between the Company and Telecom New Zealand International Limited, a fellow group company, was renegotiated. The effect of the change on the results for the twelve months ended 31 March 1992 was to reduce reported operating revenues by approximately \$5.6 million and net earnings by approximately \$3.8 million from that which would otherwise have been reported.

With effect from 1 April 1991, a new group company was formed to provide national network and other operational services to the Regional Operating Companies. As a result of this restructuring, certain fixed assets, personnel (and related accrued personnel costs) and services previously associated with the Company were transferred at net book value to the new company. The net book value of the fixed assets transferred amounted to approximately \$10.1 million.

14 FELLOW SUBSIDIARY COMPANIES

At 31 March 1992 the principal fellow subsidiaries of the Company were as follows:

- Telecom Auckland Limited
- Telecom Wellington Limited
- Telecom South Limited
- Telecom Networks and Operations Limited
- Telecom New Zealand International Limited (formerly Telecom Networks and International Limited)
- Telecom Directories Limited
- Telecom Equipment Supplies Limited
- Telecom Cellular Limited
- Telecom Mobile Radio Limited
- Telecom Repair Services Limited
- Telecom Paging Limited
- New Zealand Telecommunications Systems Support Centre Limited
- Comtel Communications Limited
- Telecom Corporation of New Zealand (Overseas Finance) Limited
- TCNZ (UK) Investments Limited
- TCNZ (United Kingdom) Securities Limited
- TCNZ Finance Limited
- TCNZ Financial Services Limited
- Telecom Wellington Investments Limited
- Telecom Operations Limited
- TCNZ Equities Limited (formerly Mokuso Holdings Limited)
- Teleco Insurance, Inc

In-substance subsidiaries

- Netway Communications Limited

TELECOM CENTRAL LIMITED AND SUBSIDIARY

NOTES TO THE FINANCIAL STATEMENTS

(CONTINUED)

15 SEGMENTAL REPORTING

The Company's principal business activity is the provision of telecommunication services, constituting more than 90% of total operating revenues, operating earnings and identifiable assets.

The Company's business is conducted predominantly in New Zealand and is therefore within one geographical area for reporting purposes.

16 ACQUIRED SUBSIDIARY

As stated in Note 1 (a) Telecom Central Limited acquired with effect from 1 April 1990 the shares and net assets of Telecom Midland Limited. The effect of the acquisition on the assets and liabilities of the Company as at 1 April 1990 was:

<u>Increase in Assets</u>	<u>\$ Million</u>
Cash, accounts receivable and prepayments	95.1
Prepaid taxation	4.5
Inventories	14.5
Fixed asset	<u>429.1</u>
	<u>543.2</u>
 <u>Increase in Liabilities and Shareholders' Funds</u>	
Accounts payable and accruals	45.9
Proposed dividends	24.4
Deferred tax provision	1.7
Pre-acquisition retained earnings	<u>12.2</u>
	<u>84.2</u>
	<u>459.0</u>

The purchase price was \$373.8 for those net assets purchased and \$85.2 million for the ordinary and preference shares acquired, with settlement to be in cash, funded by debt and shares.

AUDITORS' REPORT

*REPORT OF THE AUDITORS
TO THE MEMBERS OF TELECOM CENTRAL LIMITED*

The financial statements are in agreement with the accounting records which, in our opinion, have been properly kept. We obtained the information and explanations we required.

In our opinion, the financial statements give, under the historical cost convention a true and fair view of the state of the Company and its subsidiary's affairs at 31 March 1992, and of the earnings for the year ended on that date and they comply with the Telecommunications (Disclosure) Regulations 1990.

WELLINGTON, 27 MAY 1992

TELECOM WELLINGTON LIMITED

NOTES TO THE FINANCIAL STATEMENTS

1 STATEMENT OF ACCOUNTING POLICIES

(a) CONSTITUTION, OWNERSHIP AND ACTIVITIES

Telecom Wellington Limited (the "Company"), was incorporated on 6th December 1988 and is a wholly-owned subsidiary of Telecom Corporation of New Zealand Limited (the "parent company" or "Telecom").

With effect from 1 April 1989 Telecom was restructured into a number of Regional Operating and New Venture companies and as a result, transferred to certain subsidiaries, including Telecom Wellington Limited, at net book value, the telecommunication equipment and other assets and liabilities relating to business previously conducted by Telecom. Telecom and its subsidiaries now together form the Telecom "Group".

The parent company was wholly-owned by Her Majesty the Queen in Right of New Zealand (the "Crown") until 12 September 1990, when, pursuant to an agreement dated 14 June 1990, the Crown sold its shares to subsidiaries of two American companies, Ameritech Corporation ("Ameritech") and Bell Atlantic Corporation ("Bell Atlantic"). Ameritech and Bell Atlantic then agreed to sell a combined 10% interest to a company, Carla Nominees Limited (which was subsequently superseded at 31 March 1992 by two companies - Rontas Holdings Limited and MYNZA Holdings Limited) controlled by two New Zealand companies, Freightways Holdings Limited ("Freightways") and Midavia Holdings Limited ("Midavia"), formerly Fay, Richwhite Holdings Limited. To comply with their agreement with the Crown, Ameritech and Bell Atlantic are obligated to reduce their combined ownership of Telecom to not more than 49.9% of the outstanding share capital by September 1993 (or, under certain circumstances and with the consent of the New Zealand government, by September 1994). At the completion of this transaction period, Ameritech and Bell Atlantic will each own not more than 24.95% of Telecom.

In July 1991, to satisfy partially this obligation, Ameritech and Bell Atlantic sold 724.5 million shares in Telecom (representing approximately 31% of the then outstanding share capital) to the public and institutions in a worldwide offering.

At 31 March 1992, Ameritech and Bell Atlantic held a combined 1,614,441,112 ordinary shares (68.4% of the outstanding share capital) and Rontas Holdings Limited and MYNZA Holdings Limited each held 5,529,444 ordinary shares.

The Crown holds, and will continue to hold, one special rights convertible preference share (the "Kiwi Share") in Telecom which assures that:

- A local free-calling option will be maintained for all residential customers.
- The standard residential rental for ordinary residential telephone service will not rise faster than the cost of living as measured by the New Zealand Consumer Price Index unless Telecom's regional operating company profits are unreasonably impaired.
- Line rentals for residential customers in rural areas will be no higher than the standard residential rental, and ordinary residential telephone service will remain as widely available as it was as at 11 September 1990.

The principal activity of Telecom Wellington Limited is the provision of telecommunication services in the Wellington region.

TELECOM WELLINGTON LIMITED

NOTES TO THE FINANCIAL STATEMENTS

(CONTINUED)

1 STATEMENT OF ACCOUNTING POLICIES (Continued)

(b) GENERAL ACCOUNTING POLICIES

The measurement basis adopted in the preparation of these financial statements is historical cost modified by the revaluation of certain investments. Accrual accounting is used to match income and expenses.

(c) SPECIFIC ACCOUNTING POLICIES

REVENUE RECOGNITION

Revenues for all services are recognised when earned. Billings for telephone services are made on a monthly basis throughout the month. Unbilled revenues from the billing cycle date to the end of each month are recognised as revenue during the month the service is provided. Revenue recognition is deferred in respect of that portion of fixed monthly charges which have been billed in advance.

Revenue principally includes telephone line rental, national calls, leased circuits and the rental, sale, maintenance and installation of customer premises equipment and related products.

FIXED ASSETS

Fixed assets are valued at the cost at which they were purchased by Telecom Corporation of New Zealand Limited from the Crown as at 1 April 1987, adjusted by subsequent additions at cost, disposals and depreciation. The fixed assets were purchased from the Crown on the basis of depreciated replacement cost using estimated remaining lives as at 1 April 1987.

Telecom Wellington Limited purchased fixed assets from Telecom as at 1 April 1989 at cost (as above) less accumulated depreciation pursuant to a Sale and Purchase Agreement dated 31 March 1989 and a supplementary agreement dated 28 September 1989. Subsequent additions have been recorded at cost.

The cost of additions to plant and equipment constructed within the Telecom Group subsequent to 1 April 1987 consists of all appropriate costs of development, construction and installation comprising material, labour, direct overheads and transport costs.

Effective 1 April 1989 for each fixed asset project having a cost in excess of \$10 million and a construction period of not less than 12 months, interest cost incurred during the period of time that is required to complete and prepare the fixed asset ready for its intended use is capitalised as part of the total cost.

Where capital project commitments are hedged against foreign currency rate risk, the capital project is recorded at the hedged exchange rate.

Telecommunication equipment includes that part of the network system up to and including the contracted demarcation point, terminal equipment installed within customers' premises and the cabling and wiring within commercial buildings where this has been supplied by the Group in its own right.

Costs associated with the installation, connection and provision of services are charged to earnings.

Maintenance and repairs, including minor renewals and betterments, are charged to earnings as incurred.

TELECOM WELLINGTON LIMITED

NOTES TO THE FINANCIAL STATEMENTS

(CONTINUED)

1 STATEMENT OF ACCOUNTING POLICIES (Continued)

DEPRECIATION

Depreciation is charged on a straight line basis so as to write down the cost of the fixed assets to their estimated residual value over their estimated economic lives, which are as follows:

Telecommunication equipment and plant:

Customer local loop	5-30 years
Junctions and trunk transmission systems	10-30 years
Switching equipment	5-15 years
Customer premises equipment	5 years
Other network equipment	5-25 years
Buildings	40-100 years
Motor vehicles	5 years
Furniture and fittings	5-10 years
Computer equipment	3-5 years

When depreciable assets are retired or otherwise disposed of, the related cost and accumulated depreciation are removed from the respective accounts and any gains or losses on disposal are recognised in earnings.

Land and capital work in progress are not depreciated.

ACCOUNTS RECEIVABLE

Accounts receivable are recorded at expected realisable value after providing for bad and doubtful accounts.

INVENTORIES

Inventories are comprised principally of materials for self constructed network assets, critical maintenance spares and customer premises equipment held for rental or resale. They are stated at the lower of cost and net realisable value after due consideration for excess and obsolete items. Cost is determined on a first in first out basis.

INVESTMENTS

Short term investments consist of investments which mature or are otherwise realisable within not more than 12 months from the date of purchase and are stated at market value (where available), with the resulting gains or losses taken to earnings.

Non-current investments (and short term investments where no market value is available) are stated at the lower of cost or, where the directors consider that there has been a permanent diminution in value, at directors' valuation.

LEASES

The Company is lessor of customer premises equipment. Rental income applicable to operating leases, under which substantially all the benefits and risks of ownership remain with the lessor, are taken to revenue as earned.

Additionally, the Company is lessee of certain plant, equipment, land and buildings under operating leases. Expenses relating to operating leases are charged against earnings as incurred.

No material finance leases have been entered into as lessor or lessee.

TELECOM WELLINGTON LIMITED

NOTES TO THE FINANCIAL STATEMENTS

(CONTINUED)

1 STATEMENT OF ACCOUNTING POLICIES (Continued)

COMPENSATED ABSENCES

The liability for employees' compensation for future absences is accrued in respect of employees' services already rendered and where the obligation relates to rights which have vested. Such liability is reflected within accrued personnel costs.

LIABILITY FOR EMPLOYEES' SEVERANCE PAYMENTS

Severance payments are accrued in respect of any employees whose positions have been specifically designated as being surplus to the needs of the Company. Employees whose services with the Company are so terminated are normally entitled to lump-sum severance payments determined by reference to current basic rate of pay, length of service and conditions under which the termination occurs. The continued period during which a terminating employee served both the New Zealand Post Office and subsequently the Telecom Group constitutes the length of service.

Such liabilities are reflected within accrued personnel costs.

PENSIONS

Contributions are made into the Government Superannuation Fund (the "Fund") in respect of those employees who are members of the Fund at a rate specified under the Sale and Purchase Agreement whereby Telecom acquired the telecommunication business of the New Zealand Post Office on 1 April 1987. Additionally, full provision is made for the accrued pension costs relating to members of the Telecom Employees' Pension Plan (the "Plan") upon the basis of actuarial valuations, which are to be made at least once every three years. Contributions to the Fund and the Plan are charged against earnings.

TAXATION

The taxation expense charged to earnings includes both current and deferred tax and is calculated after allowing for permanent differences. Deferred taxation calculated using the liability method is accounted for on all significant timing differences between the earnings stated in the financial statements and the assessable income computed for taxation purposes. Deferred taxation is recognised only on those timing differences that are expected to reverse within the foreseeable future.

FOREIGN CURRENCIES

The financial statements are expressed in New Zealand dollars. Foreign currency transactions are recorded at the exchange rate ruling at the date of the transaction except for hedged transactions, which are recorded at the hedged exchange rate. Monetary assets and liabilities denominated in foreign currencies have been translated to New Zealand currency at the spot rates of exchange ruling at balance date. Realised and unrealised profits and losses on foreign exchange transactions are recognised in earnings for the period.

The Company enters into contracts with Telecom (as the Group's central treasury operation) to manage the Company's foreign exchange exposure.

- Fellow subsidiary companies	215,520	54,000
Redeemable preference units	10,600	-
	226,120	54,000

8 OTHER ASSETS

Other assets include certain deferred expenditure amounting to \$1.1 million incurred in relation to the installation of major computer systems. The deferred costs relating to each phase of the system are charged to earnings over a period of two years from the date upon which that phase of the system becomes fully operational. Deferred costs amortised during the year ended 31 March 1992 amounted to \$0.5 million.

At 31 March 1992, other assets include \$0.9 million, being advances to the Trustee of two employee share purchase plans. These share purchase plans were established in July 1991 as part of the initial public offering and gave employees the opportunity to invest in Telecom, financed by interest free and favourable interest rate loans repayable over a three-year period.

The shares, which were purchased at the initial public offering price of \$2 each, are held in trust for the employee for a restrictive period of three years, during which time voting rights will be exercised by the Trustee in its discretion.

Buildings:		
- Cost	64,054	63,520
- Accumulated depreciation	(8,993)	(5,930)
	<u>55,061</u>	<u>57,590</u>
Other fixed assets:		
- Cost	70,332	68,560
- Accumulated depreciation	(28,447)	(23,247)
	<u>41,885</u>	<u>45,313</u>
Total cost	666,920	635,152
Total accumulated depreciation	(246,703)	(202,538)
Total net book value	420,217	432,614

Included in telecommunications equipment at 31 March 1992 and 31 March 1991 respectively, is equipment (principally customer premises equipment) leased to customers under operating leases with a cost of \$101.0 million and \$99.6 million, together with accumulated depreciation of \$79.1 million and \$67.5 million.

Other fixed assets include tools and plant, vehicles, office equipment, furniture and fittings and computer equipment.

TELECOM WELLINGTON LIMITED

NOTES TO THE FINANCIAL STATEMENTS

(CONTINUED)

9 FIXED ASSETS (Continued)**REGISTRATION OF TITLE TO LAND**

Certificates of title for freehold interests in land included in the assets purchased from the Crown are being progressively raised by the Crown and transferred to Group companies. Titles for substantially all of the freehold interests have now been issued and, for the remainder, equitable ownership rests with the Group.

LAND CLAIMS

Under the Treaty of Waitangi Act 1975 all interests in land included in the assets purchased from the Crown may be subject to claims to the Waitangi Tribunal which has the power to recommend in appropriate circumstances, with binding effect, that the land be resumed by the Crown in order that it be returned to Maori claimants. In the event that land is resumed by the Crown, compensation will be paid to Telecom under the provisions of the Public Works Act 1981. If this is insufficient to cover the loss, certain additional compensation is payable under the provisions of the Sale and Purchase Agreement between Telecom and the Crown.

Under the State Owned Enterprises Act 1986 the Governor General of New Zealand may if satisfied that any land or interest in land held by Telecom is Wahi Tapu (being land of special spiritual, cultural or historical tribal significance) declare by order in Council that the land be resumed by the Crown, with compensation payable to Telecom under the provisions of the Public Works Act 1981.

Telecom would expect to negotiate with the new Maori owners for continued occupancy rights of any sites resumed by the Crown.

10 ACCOUNTS PAYABLE AND ACCRUALS

	1992	1991
	\$000's	\$000's

	<u>\$70.7</u>

CAPITAL COMMITMENTS

As at 31 March 1992 capital expenditure amounting to \$1.7 million (31 March 1991: \$14.6 million) has been committed under contractual arrangements.

14 CONTINGENT LIABILITIES

LAND CLAIMS

As stated in Note 9, interests in land included in assets purchased from the Crown may be subject to claims to the Waitangi Tribunal or may be deemed to be Wahi Tapu and, in either case, may be resumed by the Crown.

Certain claims have been brought or are pending against the Crown under the Treaty of Waitangi Act 1975. Some of these claims may affect land transfers to Telecom by the Crown and/or by Telecom to its subsidiary companies.

In the event that land is resumed by the Crown, there is provision for compensation to Telecom.

LAWSUITS AND OTHER CLAIMS

Various lawsuits, claims and investigations have been brought by or against the Company. The Board of Directors believes that in the event of an unfavourable outcome, such matters will not have a material adverse effect upon the Company's financial position.

TELECOM WELLINGTON LIMITED

NOTES TO THE FINANCIAL STATEMENTS

(CONTINUED)

14 CONTINGENT LIABILITIES (Continued)

In addition to the above, a competitor filed proceedings, in August 1991, against Telecom, including Telecom Wellington, in connection with a request for a local service interconnection arrangement. The substantive issues are to be heard by the Court commencing in June 1992. The basis of claim is that the Telecom Group, in offering certain terms and conditions of service, is in breach of section 36 of the Commerce Act 1986. Telecom believes that it has valid defences to these proceedings. Because there are very few precedents to assist Telecom in determining the outcome if this action were to proceed, Telecom cannot ascertain the likelihood of such action being successful or the potential impact any judgement against it might have upon the trend of future net earnings.

GUARANTEES

The Company has guaranteed, together with other subsidiary companies, approximately \$1,533 million of the indebtedness of the parent company and other subsidiary companies at 31 March 1992, principally under the following agreements:

- (i) \$466.3 million under a trust deed made as of 25 October 1988 with the New Zealand Guardian Trust Company Limited providing for the constitution and issue of securities in respect of indebtedness from time to time of the parent company and/or any guaranteeing subsidiary.
- (ii) \$542.0 million under a trust deed made as of 20 September 1989 and certain supplemental trust deeds with the Law Debenture Trust Corporation PLC providing for the constitution and issue of securities in respect of indebtedness from time to time of the parent company and/or any guaranteeing subsidiary.
- (iii) British pounds 122.6 million (NZ\$388.1 million) under a deed poll dated 12 November 1990.
- (iv) \$137.0 million under a deed of guarantee dated 27 March 1992 in respect of the issue of Mandatory Convertible Notes by a fellow subsidiary. Further performance based guarantees have also been given by the company.

Under certain of the agreements referred to above the Company together with the other guaranteeing subsidiaries has given a negative pledge that while any of the guaranteed indebtedness remains outstanding it will not, subject to certain exceptions, create or permit to exist any charge or lien over any of its assets.

15 RELATED PARTY TRANSACTIONS

RELATIONSHIP WITH STATE OWNED ENTERPRISES AND GOVERNMENT DEPARTMENTS

The Company is wholly owned by Telecom Corporation of New Zealand Limited which in turn was owned by the Crown until 12 September 1990. During that time the Company undertook many transactions with other State Owned Enterprises and government departments which were carried out at arm's length and in the normal course of business.

RELATIONSHIP WITH PARENT AND FELLOW SUBSIDIARY COMPANIES

During the period the Company derived revenue (approximately 7%) from access fees, maintenance services and asset construction services provided to fellow subsidiaries. The Company also utilised network capacity and related services and group management services provided by fellow subsidiaries. Additionally, certain inventory and network assets were procured from and serviced by fellow subsidiaries. Such expenses represented approximately 21% of total operating expenses.

TELECOM WELLINGTON LIMITED

NOTES TO THE FINANCIAL STATEMENTS

(CONTINUED)

15 RELATED PARTY TRANSACTIONS (Continued)

Outstanding intercompany balances as at 31 March 1992 are:

- Intercompany receivable and current account	\$13.9 million
- Intercompany payable	\$30.6 million
- Intercompany term liabilities	\$361.7 million

With the exception of the current account and the term liability, the balances are payable on normal trading terms. The current account is on call and the term liability has no fixed date for repayment. No related party debts have been written off or forgiven during the year.

GROUP RESTRUCTURING AND CHANGE IN TRADING RELATIONSHIP

With effect from 1 April 1991, the pricing of the trading relationship between the Company and Telecom New Zealand International Limited, a fellow group company, was renegotiated. The effect of the change on the results for the twelve months ended 31 March 1992 was to reduce reported operating revenues by approximately \$12.5 million and net earnings by approximately \$8.4 million from that which would otherwise have been reported.

With effect from 1 April 1991, a new group company was formed to provide national network and other operational services to the Regional Operating Companies. As a result of this restructuring, certain fixed assets, personnel (and related accrued personnel costs) and services previously associated with the Company were transferred at net book value to the new company. The net book value of the fixed assets transferred amounted to approximately \$4.1 million.

16 FELLOW SUBSIDIARY COMPANIES

At 31 March 1992 the principal fellow subsidiaries of the Company were as follows:

- Telecom Auckland Limited
- Telecom Central Limited
- Telecom South Limited
- Telecom Networks and Operations Limited
- Telecom New Zealand International Limited (formerly Telecom Networks and International Limited)
- Telecom Directories Limited
- Telecom Equipment Supplies Limited
- Telecom Cellular Limited
- Telecom Mobile Radio Limited
- Telecom Repair Services Limited
- Telecom Paging Limited
- New Zealand Telecommunications Systems Support Centre Limited
- Comtel Communications Limited
- Telecom Corporation of New Zealand (Overseas Finance) Limited
- TCNZ (UK) Investments Limited
- TCNZ (United Kingdom) Securities Limited
- TCNZ Finance Limited
- TCNZ Financial Services Limited
- Telecom Wellington Investments Limited
- Telecom Operations Limited
- TCNZ Equities Limited (formerly Mokuso Holdings Limited)
- Teleco Insurance, Inc

In-substance subsidiaries

- Netway Communications Limited

17 SEGMENTAL REPORTING

The Company's principal business activity is the provision of telecommunication services, constituting more than 90% of total operating revenues, operating earnings and identifiable assets.

The Company's business is conducted predominantly in New Zealand and is therefore within one geographical area for reporting purposes.

AUDITORS' REPORT

*REPORT OF THE AUDITORS
TO THE MEMBERS OF TELECOM WELLINGTON LIMITED*

The financial statements are in agreement with the accounting records which, in our opinion, have been properly kept. We obtained the information and explanations we required.

In our opinion, the financial statements give, under the historical cost convention a true and fair view of the state of the Company's affairs at 31 March 1992 and of the earnings for the year ended on that date and they comply with the Telecommunications (Disclosure) Regulations 1990.

CHRISTCHURCH, 27 MAY 1992

TELECOM SOUTH LIMITED

NOTES TO THE FINANCIAL STATEMENTS

1 STATEMENT OF ACCOUNTING POLICIES

(a) CONSTITUTION, OWNERSHIP AND ACTIVITIES

Telecom South Limited (the "Company"), was incorporated on 6th December 1988 and is a wholly-owned subsidiary of Telecom Corporation of New Zealand Limited (the "parent company" or "Telecom").

With effect from 1 April 1989 Telecom was restructured into a number of Regional Operating and New Venture companies and as a result, transferred to certain subsidiaries, including Telecom South Limited, at net book value, the telecommunication equipment and other assets and liabilities relating to business previously conducted by Telecom. Telecom and its subsidiaries now together form the Telecom "Group".

The parent company was wholly-owned by Her Majesty the Queen in Right of New Zealand (the "Crown") until 12 September 1990, when, pursuant to an agreement dated 14 June 1990, the Crown sold its shares to subsidiaries of two American companies, Ameritech Corporation ("Ameritech") and Bell Atlantic Corporation ("Bell Atlantic"). Ameritech and Bell Atlantic then agreed to sell a combined 10% interest to a company, Carla Nominees Limited (which was subsequently superseded at 31 March 1992 by two companies - Rontas Holdings Limited and MYNZA Holdings Limited) controlled by two New Zealand companies, Freightways Holdings Limited ("Freightways") and Midavia Holdings Limited ("Midavia"), formerly Fay, Richwhite Holdings Limited. To comply with their agreement with the Crown, Ameritech and Bell Atlantic are obligated to reduce their combined ownership of Telecom to not more than 49.9% of the outstanding share capital by September 1993 (or, under certain circumstances and with the consent of the New Zealand government, by September 1994). At the completion of this transaction period, Ameritech and Bell Atlantic will each own not more than 24.95% of Telecom.

In July 1991, to satisfy partially this obligation, Ameritech and Bell Atlantic sold 724.5 million shares in Telecom (representing approximately 31% of the then outstanding share capital) to the public and institutions in a worldwide offering.

At 31 March 1992, Ameritech and Bell Atlantic held a combined 1,614,441,112 ordinary shares (68.4% of the outstanding share capital) and Rontas Holdings Limited and MYNZA Holdings Limited each held 5,529,444 ordinary shares.

The Crown holds, and will continue to hold, one special rights convertible preference share (the "Kiwi Share") in Telecom which assures that:

- A local free-calling option will be maintained for all residential customers.
- The standard residential rental for ordinary residential telephone service will not rise faster than the cost of living as measured by the New Zealand Consumer Price Index unless Telecom's regional operating company profits are unreasonably impaired.
- Line rentals for residential customers in rural areas will be no higher than the standard residential rental, and ordinary residential telephone service will remain as widely available as it was as at 11 September 1990.

The principal activity of Telecom South Limited is the provision of telecommunication services in the South Island.

TELECOM SOUTH LIMITED

NOTES TO THE FINANCIAL STATEMENTS

(CONTINUED)

1 STATEMENT OF ACCOUNTING POLICIES (Continued)

(b) GENERAL ACCOUNTING POLICIES

The measurement basis adopted in the preparation of these financial statements is historical cost. Accrual accounting is used to match income and expenses.

(c) SPECIFIC ACCOUNTING POLICIES

REVENUE RECOGNITION

Revenues for all services are recognised when earned. Billings for telephone services are made on a monthly basis throughout the month. Unbilled revenues from the billing cycle date to the end of each month are recognised as revenue during the month the service is provided. Revenue recognition is deferred in respect of that portion of fixed monthly charges which have been billed in advance.

Revenue principally includes telephone line rental, national calls, leased circuits and the rental, sale, maintenance and installation of customer premises equipment and related products.

FIXED ASSETS

Fixed assets are valued at the cost at which they were purchased by Telecom Corporation of New Zealand Limited from the Crown as at 1 April 1987, adjusted by subsequent additions at cost, disposals and depreciation. The fixed assets were purchased from the Crown on the basis of depreciated replacement cost using estimated remaining lives as at 1 April 1987.

Telecom South Limited purchased fixed assets from Telecom as at 1 April 1989 at cost (as above) less accumulated depreciation pursuant to a Sale and Purchase Agreement dated 31 March 1989 and a supplementary agreement dated 28 September 1989. Subsequent additions have been recorded at cost.

The cost of additions to plant and equipment constructed within the Telecom Group subsequent to 1 April 1987 consists of all appropriate costs of development, construction and installation comprising material, labour, direct overheads and transport costs.

Effective 1 April 1989 for each fixed asset project having a cost in excess of \$10 million and a construction period of not less than 12 months, interest cost incurred during the period of time that is required to complete and prepare the fixed asset ready for its intended use is capitalised as part of the total cost.

Where capital project commitments are hedged against foreign currency rate risk, the capital project is recorded at the hedged exchange rate.

Telecommunication equipment includes that part of the network system up to and including the contracted demarcation point, terminal equipment installed within customers' premises and the cabling and wiring within commercial buildings where this has been supplied by the Group in its own right.

Costs associated with the installation, connection and provision of services are charged to earnings.

Maintenance and repairs, including minor renewals and betterments, are charged to earnings as incurred.

TELECOM SOUTH LIMITED

NOTES TO THE FINANCIAL STATEMENTS

(CONTINUED)

1 STATEMENT OF ACCOUNTING POLICIES (Continued)

DEPRECIATION

Depreciation is charged on a straight line basis so as to write down the cost of the fixed assets to their estimated residual value over their estimated economic lives, which are as follows:

Telecommunication equipment and plant:	
Customer local loop	5-30 years
Junctions and trunk transmission systems	10-30 years
Switching equipment	5-15 years
Customer premises equipment	5 years
Other network equipment	5-25 years
Buildings	40-100 years
Motor vehicles	5 years
Furniture and fittings	5-10 years
Computer equipment	3-5 years

When depreciable assets are retired or otherwise disposed of, the related cost and accumulated depreciation are removed from the respective accounts and any gains or losses on disposal are recognised in earnings.

Land and capital work in progress are not depreciated.

ACCOUNTS RECEIVABLE

Accounts receivable are recorded at expected realisable value after providing for bad and doubtful accounts.

INVENTORIES

Inventories are comprised principally of materials for self constructed network assets, critical maintenance spares and customer premises equipment held for rental or resale. They are stated at the lower of cost and net realisable value after due consideration for excess and obsolete items. Cost is determined on a first in first out basis.

LEASES

The Company is lessor of customer premises equipment. Rental income applicable to operating leases, under which substantially all the benefits and risks of ownership remain with the lessor, are taken to revenue as earned.

Additionally, the Company is lessee of certain plant, equipment, land and buildings under both operating and finance leases. Expenses relating to operating leases are charged against earnings as incurred. Finance leases, which effectively transfer to the entity substantially all the risks and benefits of ownership of the leased item, are capitalised at the present value of the minimum lease payments. The leased assets and corresponding liabilities are disclosed and the leased assets are amortised over the period the entity is expected to benefit from their use.

No material finance leases have been entered into as lessor.

COMPENSATED ABSENCES

The liability for employees' compensation for future absences is accrued in respect of employees' services already rendered and where the obligation relates to rights which have vested. Such liability is reflected within accrued personnel costs.

TELECOM SOUTH LIMITED

NOTES TO THE FINANCIAL STATEMENTS

(CONTINUED)

1 STATEMENT OF ACCOUNTING POLICIES (Continued)

LIABILITY FOR EMPLOYEES' SEVERANCE PAYMENTS

Severance payments are accrued in respect of any employees whose positions have been specifically designated as being surplus to the needs of the Company. Employees whose services with the Company are so terminated are normally entitled to lump-sum severance payments determined by reference to current basic rate of pay, length of service and conditions under which the termination occurs. The continued period during which a terminating employee served both the New Zealand Post Office and subsequently the Telecom Group constitutes the length of service.

Such liabilities are reflected within accrued personnel costs.

PENSIONS

Contributions are made into the Government Superannuation Fund (the "Fund") in respect of those employees who are members of the Fund at a rate specified under the Sale and Purchase Agreement whereby Telecom acquired the telecommunication business of the New Zealand Post Office on 1 April 1987. Additionally, full provision is made for the accrued pension costs relating to members of the Telecom Employees' Pension Plan (the "Plan") upon the basis of actuarial valuations, which are to be made at least once every three years. Contributions to the Fund and the Plan are charged against earnings.

TAXATION

The taxation expense charged to earnings includes both current and deferred tax and is calculated after allowing for permanent differences. Deferred taxation calculated using the liability method is accounted for on all significant timing differences between the earnings stated in the financial statements and the assessable income computed for taxation purposes. Deferred taxation is recognised only on those timing differences that are expected to reverse within the foreseeable future.

FOREIGN CURRENCIES

The financial statements are expressed in New Zealand dollars. Foreign currency transactions are recorded at the exchange rate ruling at the date of the transaction except for hedged transactions, which are recorded at the hedged exchange rate. Monetary assets and liabilities denominated in foreign currencies have been translated to New Zealand currency at the spot rates of exchange ruling at balance date. Realised and unrealised profits and losses on foreign exchange transactions are recognised in earnings for the period.

The Company enters into contracts with Telecom (as the Group's central treasury operation) to manage the Company's foreign exchange exposure.

RECLASSIFICATIONS

Certain reclassifications of prior years' data have been made to conform to 1992 classifications.

(d) CHANGES IN ACCOUNTING POLICIES

There have been no material changes in accounting policies during the year.

Due from parent company	3,910	-
Prepaid expenses and other	1,195	906
	<u>62,855</u>	<u>58,533</u>

6 OTHER ASSETS

Other assets include certain deferred expenditure amounting to \$4.3 million (31 March 1991: \$6.2 million) incurred in relation to the installation of major computer systems. The deferred costs relating to each phase of the system are charged to earnings over a period of two years from the date upon which that phase of the system becomes fully operational. Deferred costs amortised during the year ended 31 March 1992 amounted to \$4.2 million (31 March 1991 \$1.5 million).

In addition, at 31 March 1992, other assets include \$1.6 million, being advances to the Trustee of two employee share purchase plans. These share purchase plans were established in July 1991 as part of the initial public offering and gave employees the opportunity to invest in Telecom, financed by interest free and favourable interest rate loans repayable over a three-year period.

The shares, which were purchased at the initial public offering price of \$2 each, are held in trust for the employee for a restrictive period of three years, during which time voting rights will be exercised by the Trustee in its discretion.

TELECOM SOUTH LIMITED

	<u>660,043</u>	<u>628,517</u>
Capital work in progress	37,056	96,231
Land	35,186	38,055
Buildings:		
- Cost	91,595	69,533
- Accumulated depreciation	(10,004)	(10,915)
	<u>81,591</u>	<u>58,618</u>
Other fixed assets:		
- Cost	112,785	92,483
- Accumulated depreciation	(48,094)	(38,225)
	<u>64,691</u>	<u>54,258</u>
Total cost	1,279,845	1,219,304
Total accumulated depreciation	(401,278)	(343,625)
Total net book value	<u>878,567</u>	<u>875,679</u>

Included in telecommunications equipment, at 31 March 1992 and 31 March 1991 respectively, is equipment (principally customer premises equipment) leased to customers under operating leases with a cost of \$117.6 million and \$117.1 million, together with accumulated depreciation of \$97.2 million and \$78.3 million.

Other fixed assets include tools and plant, vehicles, office equipment, furniture and fittings and computer equipment.

During the year ended 31 March 1992, the Company entered into a sale and leaseback of telecommunications equipment with a fellow group company. At 31 March 1992, assets capitalised under finance leases associated with this transaction had a cost of \$49.1 million and accumulated depreciation of \$3.4 million.

REGISTRATION OF TITLE TO LAND

Certificates of title for freehold interests in land included in the assets purchased from the Crown are being progressively raised by the Crown and transferred to Group companies. Titles for substantially all of the freehold interests have now been issued and, for the remainder, equitable ownership rests with the Group.

TELECOM SOUTH LIMITED

NOTES TO THE FINANCIAL STATEMENTS

(CONTINUED)

7 FIXED ASSETS (Continued)**LAND CLAIMS**

Under the Treaty of Waitangi Act 1975 all interests in land included in the assets purchased from the Crown may be subject to claims to the Waitangi Tribunal which has the power to recommend in appropriate circumstances, with binding effect, that the land be resumed by the Crown in order that it be returned to Maori claimants. In the event that land is resumed by the Crown, compensation will be paid to Telecom under the provisions of the Public Works Act 1981. If this is insufficient to cover the loss, certain additional compensation is payable under the provisions of the Sale and Purchase Agreement between Telecom and the Crown.

Under the State Owned Enterprises Act 1986 the Governor General of New Zealand may if satisfied that any land or interest in land held by Telecom is Wahi Tapu (being land of special spiritual, cultural or historical tribal significance) declare by order in Council that the land be resumed by the Crown, with compensation payable to Telecom under the provisions of the Public Works Act 1981.

Telecom would expect to negotiate with the new Maori owners for continued occupancy rights of any sites resumed by the Crown.

12 CONTINGENT LIABILITIES

LAND CLAIMS

As stated in Note 7, interests in land included in assets purchased from the Crown may be subject to claims to the Waitangi Tribunal or may be deemed to be Wahi Tapu and, in either case, may be resumed by the Crown.

Certain claims have been brought or are pending against the Crown under the Treaty of Waitangi Act 1975. Some of these claims may affect land transfers to Telecom by the Crown and/or by Telecom to its subsidiary companies.

In the event that land is resumed by the Crown, there is provision for compensation to Telecom.

LAWSUITS AND OTHER CLAIMS

Various lawsuits, claims and investigations have been brought by or against the Company. The Board of Directors believes that in the event of an unfavourable outcome, such matters will not have a material adverse effect upon the Company's financial position.

In addition to the above, a competitor filed proceedings in August 1991, against Telecom, in connection with a request for a local service interconnection arrangement. The substantive issues are to be heard by the Court commencing in June 1992. The basis of claim is that the Telecom Group, in offering certain terms and conditions of service, is in breach of section 36 of the Commerce Act 1986. Telecom believes that it has valid defences to these proceedings. Because there are very few precedents to assist Telecom in determining the outcome if this action were to proceed, Telecom cannot ascertain the likelihood of such action being successful or the potential impact any judgement against it might have upon the trend of future net earnings.

GUARANTEES

The Company has guaranteed, together with other subsidiary companies, approximately \$1,533 million of the indebtedness of the parent company and other subsidiary companies at 31 March 1992, principally under the following agreements:

- (i) \$466.3 million under a trust deed made as of 25 October 1988 with the New Zealand Guardian Trust Company Limited providing for the constitution and issue of securities in respect of indebtedness from time to time of the parent company and/or any guaranteeing subsidiary.
- (ii) \$542.0 million under a trust deed made as of 20 September 1989 and certain supplemental trust deeds with the Law Debenture Trust Corporation PLC providing for the constitution and issue of securities in respect of indebtedness from time to time of the parent company and/or any guaranteeing subsidiary.
- (iii) British pounds 122.6 million (NZ\$388.1 million) under a deed poll dated 12 November 1990.
- (iv) \$137.0 million under a deed of guarantee dated 27 March 1992 in respect of the issue of Mandatory Convertible Notes by a fellow subsidiary. Further performance based guarantees have also been given by the company.

Under certain of the agreements referred to above the Company together with the other guaranteeing subsidiaries has given a negative pledge that while any of the guaranteed indebtedness remains outstanding it will not, subject to certain exceptions, create or permit to exist any charge or lien over any of its assets.

13 RELATED PARTY TRANSACTIONS

RELATIONSHIP WITH STATE OWNED ENTERPRISES AND GOVERNMENT DEPARTMENTS

The Company is wholly owned by Telecom Corporation of New Zealand Limited which in turn was owned by the Crown until 12 September 1990. During that time the Company undertook many transactions with other State Owned Enterprises and government departments which were carried out at arm's length and in the normal course of business.

RELATIONSHIP WITH PARENT AND FELLOW SUBSIDIARY COMPANIES

During the period the Company derived revenue (approximately 8%) from access fees, maintenance services and asset construction services provided to fellow subsidiaries. The Company also utilised network capacity and related services and group management services provided by fellow subsidiaries. Additionally, certain inventory and network assets were procured from and serviced by fellow subsidiaries. Such expenses represented approximately 18% of total operating expenses.

Outstanding intercompany balances as at 31 March 1992 are:

- Intercompany receivable and current account	\$13.6 million
- Intercompany payable	\$19.6 million
- Intercompany term liabilities	\$294.3 million

With the exception of the current account and the term liability to parent company, the balances are payable on normal trading terms. The current account is on call and the term liability to parent company has no fixed date for repayment. No related party debts have been written off or forgiven during the year.

GROUP RESTRUCTURING AND CHANGE IN TRADING RELATIONSHIP

With effect from 1 April 1991, the pricing of the trading relationship between the Company and Telecom New Zealand International Limited, a fellow group company, was renegotiated. The effect of the change on the results for the twelve months ended 31 March 1992 was to reduce reported operating revenues by approximately \$7.3 million and net earnings by approximately \$4.9 million from that which would otherwise have been reported.

With effect from 1 April 1991, a new group company was formed to provide national network and other operational services to the Regional Operating Companies. As a result of this restructuring, certain fixed assets, personnel (and related accrued personnel costs) and services previously associated with the Company were transferred at net book value to the new company. The net book value of the fixed assets transferred amounted to approximately \$12.1 million.
